2. ACQUISITIONS

Acquisition of Titan Europe Plc.

On October 31, 2012, Titan acquired over 97% of the outstanding stock of Titan Europe Plc (Titan Europe) and in December 2012, the remaining 3% interest was acquired. Titan Europe is an international engineering group which designs and manufactures wheels, undercarriage components and assemblies for tracked and wheeled "off-road vehicles". The Titan Europe acquisition allowed the Company to expand its global presence and expand its product line. Prior to the acquisition, Titan held a 21.8% ownership percentage in Titan Europe. Titan Europe shareholders received one share of new Titan common stock for every 11 Titan Europe shares held. A total of 6,257,051 new shares of Titan were issued with a value of \$121.8 million. In addition, Titan paid cash of \$5.6 million for option payouts and partial shares. Titan's previous investment in Titan Europe had a fair value on the acquisition date of \$31.7 million based on Titan Europe's stock price on the AIM market in London. Total consideration including the value of stock issued, cash payments, and the fair value of previously held Titan Europe shares totaled \$159.1 million. A gain of \$26.7 million was recorded on Titan's previously held interest in Titan Europe which was recorded as Noncash Titan Europe Plc gain in the consolidated statement of operations. This gain was previously recorded in other comprehensive income.

The purchase price was allocated to the assets acquired and liabilities assumed based on their fair values. Inventory was valued using the comparative sales method. Real and personal property was valued at fair value. The Company continues to evaluate the preliminary purchase price allocation, primarily the value of certain deferred taxes and property, plant & equipment, and may revise the purchase price allocation in future periods as these estimates are finalized.

The purchase price allocation of the Titan Europe acquisition consisted of the following (amounts in thousands):

Cash	\$	39,122
Accounts receivable		128,585
Inventories		178,407
Deferred income taxes - current asset		22,068
Prepaid & other current assets		21,745
Earthquake insurance receivable		17,024
Property, plant & equipment		217,309
Investment in Wheels India Limited		36,804
Other assets		8,414
Short term debt		(96,822)
Accounts payable		(142,752)
Other current liabilities		(56,391)
Long term debt		(158,183)
Deferred income taxes - noncurrent liability		(12,636)
Other noncurrent liabilities		(31,874)
Net assets acquired	\$	<u>170,820</u>

The purchase price allocation has changed from that reported in the Form 10-K for the year ended December 31, 2012, and the 10-Q for the quarter ended March 31, 2013. Titan Europe's wheel manufacturing facility in Finale Emilia, Italy experienced damage from an earthquake in May 2012, prior to Titan's acquisition of Titan Europe. The plant was closed for production during initial remedial work. This resulted in a limited transfer of production to other facilities within Titan Europe as well as sourcing product from facilities in the US owned by Titan and competitors. In the second quarter of 2013, Titan received a final insurance settlement payment of \$38.7 million. As a result of this information, Titan has recorded an earthquake insurance receivable of \$17.0 million, decreased the current deferred income taxes by \$5.3 million, and recorded a bargain purchase gain of \$11.7 million for the year ended December 31, 2012.

At December 31, 2012, approximately 16% of the Company's inventories were valued under the LIFO method. The remaining inventories were valued under the first-in, first-out (FIFO) method or average cost method. All inventories are valued at lower of cost or market. The LIFO reserve decreased primarily as a result of the composition of inventory. An overall increase in raw material relative to total inventory resulted in a greater decrease in the FIFO cost versus the LIFO cost.

9. DERIVATIVE FINANCIAL INSTRUMENTS

Prior to the April 2013 payoff of the Brazil Term Loan with Bank of America, N.A. (BoA Term Loan), the Company used financial derivatives to mitigate its exposure to volatility in the interest rate and foreign currency exchange rate in Brazil. The Company used these derivative instruments to hedge exposure in the ordinary course of business and did not invest in derivative instruments for speculative purposes. In order to reduce interest rate and foreign currency risk on the BoA Term Loan, the Company entered into an interest rate swap agreement and cross currency swap transactions with Bank of America Merrill Lynch Banco Multiplo S.A. that was designed to convert the outstanding \$5.0 million US Dollar based LIBOR loan to a Brazilian Reais based CDI loan. The Company did not designate these agreements as a hedging instrument. Changes in the fair value of the cross currency swap were recorded in other income/expense and changes in the fair value of the interest rate swap agreement were recorded as interest expense (or gain as an offset to interest expense). For the nine months ended September 30, 2013, the Company recorded \$0.6 million of other expense and \$0.1 million of interest expense related to these derivatives.

The Company also used derivative financial instruments to manage its exposure to market risks from changes in interest rates in Europe. These derivative financial instruments are recognized at fair value. The Company has not designated these financial instruments as hedging instruments. Any gain or loss on the re-measurement of the fair value is taken to interest expense. For the three months ended September 30, 2013, the Company recorded interest expense of \$0.1 million related to these derivatives. For the nine months ended September 30, 2013, the Company recorded an offset to interest expense of \$1.0 million related to these derivatives.

The Company's April 2011 acquisition of Goodyear's farm tire business included a three year supply agreement with Goodyear for certain non-farm tire products. A liability was recorded as the supply agreement was for sales at below market prices. In May 2012, the Company and Goodyear terminated this supply agreement and entered into an agreement under which Titan will sell these products directly to third party customers and pay a royalty to Goodyear. The remaining balance of the supply agreement liability was recorded as income as the Company is no longer obligated to sell the products at below market prices.

Titan Europe's wheel manufacturing facility in Finale Emilia, Italy experienced damage from an earthquake in May 2012, prior to Titan's acquisition of Titan Europe. The plant was closed for production during initial remedial work. This resulted in a limited transfer of production to other facilities within Titan Europe as well as sourcing product from facilities in the US owned by Titan and competitors. In the second quarter of 2013, Titan received a final insurance settlement payment of \$38.7 million, which offset the earthquake insurance receivable and resulted in a gain of \$22.5 million.

The Company's effective income tax rate was 44% and 40% for the nine months ended September 30, 2013 and 2012, respectively.

The Company's 2013 income tax expense and rate differs from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of a change in Italian law making the insurance proceeds from the earthquake non-taxable. In addition, as a result of the reassessment of the realizability of the deferred tax assets due to the Italian law change, a valuation allowance was established on the Italy net deferred tax assets. Other items contributing to the rate difference are state income tax expense, unrecognized tax benefits, foreign earnings, domestic production activities deduction, and tax deductible expenses related to the convertible bond repurchase.

TITAN INTERNATIONAL, INC.
Notes to Consolidated Condensed Financial Statements

Accounting standards for income taxes provide that a tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination. The Company's unrecognized tax benefits were \$20.0 million and \$14.3 million as of September 30, 2013 and December 31, 2012, respectively. As of September 30, 2013, \$16.0 million would affect income tax expense if recognized. The majority of the increase in unrecognized tax benefits relates to potential state tax exposures. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as a component of income tax expense. The amount of accrued interest and penalties included in the unrecognized tax benefits at September 30, 2013 and December 31, 2012 was \$3.3 million and \$2.4 million, respectively.

20. FAIR VALUE MEASUREMENTS

Accounting standards for fair value measurements establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers are defined as:

Level 1 – Quoted prices in active markets for identical instruments.

Level 2 – Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 – Unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities measured at fair value on a recurring basis consisted of the following (amounts in thousands):

OVERVIEW

Titan International, Inc. and its subsidiaries are leading manufacturers of wheels, tires, wheel and tire assemblies, and undercarriage systems and components for off-highway vehicles used in the agricultural, earthmoving/construction and consumer markets. Titan manufactures both wheels and tires for the majority of these market applications, allowing the Company to provide the value-added service of delivering complete wheel and tire assemblies. The Company offers a broad range of products that are manufactured in relatively short production runs to meet the specifications of original equipment manufacturers (OEMs) and/or the requirements of aftermarket customers.

Agricultural Market: Titan's agricultural rims, wheels, tires and undercarriage systems and components are manufactured for use on various agricultural and forestry equipment, including tractors, combines, skidders, plows, planters and irrigation equipment, and are sold directly to OEMs and to the aftermarket through independent distributors, equipment dealers and Titan's own distribution centers.

Earthmoving/Construction Market: The Company manufactures rims, wheels, tires and undercarriage systems and components for various types of off-the-road (OTR) earthmoving, mining, military and construction equipment, including skid steers, aerial lifts, cranes, graders and levelers, scrapers, self-propelled shovel loaders, articulated dump trucks, load transporters, haul trucks and backhoe loaders.

Consumer Market: Titan manufactures bias truck tires in Latin America, provides wheels and tires and assembles brakes, actuators and components for the domestic boat, recreational and utility trailer markets. Titan also offers select products for ATVs, turf, and golf cart applications. Likewise, Titan produces a variety of tires for the consumer market.

The Company's major OEM customers include large manufacturers of off-highway equipment such as AGCO Corporation, CNH Global N.V., Deere & Company, Hitachi Construction Machinery, Kubota Corporation and Liebherr Group, in addition to many other off-highway equipment manufacturers. The Company distributes products to OEMs, independent and OEM-affiliated dealers, and through a network of distribution facilities.

The table provides highlights for the quarter ended September 30, 2013, compared to 2012 (amounts in thousands):

	2013	2012	% Increase (Decrease)
Net sales	\$ 497,510	\$ 404,719	23 %
Gross profit	62,506	67,161	(7)%
Income from operations	17,055	36,166	(53)%
Net income	7,652	18,829	(59)%

Quarter: The Company recorded sales of \$497.5 million for the third quarter of 2013, which were approximately 23% higher than the third quarter 2012 sales of \$404.7 million. The higher sales levels were primarily the result of recent acquisitions including the October 2012 acquisition of Titan Europe, offset by a price/mix reduction which resulted largely from decreased raw material prices that were generally passed on to customers, weakened demand in the earthmoving/construction market, and unfavorable currency translation.

The Company's gross profit was \$62.5 million, or 12.6% of net sales, for the third quarter of 2013, compared to \$67.2 million, or 16.6%, of net sales, in 2012. Income from operations was \$17.1 million for the third quarter of 2013, compared to \$36.2 million in 2012. Net income was \$7.7 million for the third quarter of 2013, compared to net income of \$18.8 million in 2012. Basic income per share was \$.15 in the third quarter of 2013, compared to \$.46 in 2012. Increased SG&A expense from recently acquired entities contributed to a decline in income from operations. This increased SG&A expense as well as higher interest expense from additional debt contributed to a decline in net income.

The table provides highlights for the nine months ended September 30, 2013, compared to 2012 (amounts in thousands):

	2013	2012	% Increase (Decrease)
Net sales	\$ 1,669,188	\$ 1,327,040	26 %
Gross profit	245,912	242,610	1 %
Income from operations	101,844	175,806	(42)%
Net income	49,897	98,548	(49)%

Year-to-date: The Company recorded sales of \$1,669.2 million for the nine months ended September 30, 2013, which were approximately 26% higher than the nine months ended September 30, 2012 sales of \$1,327.0 million. The higher sales levels were primarily the result of recent acquisitions including the August 2012 acquisition of the Planet Group of companies based in Perth, Australia, and the October 2012 acquisition of Titan Europe, as well as increased demand in the Company's agricultural segment, offset by a price/mix reduction which resulted largely from decreased raw material prices that were generally passed on to customers, and unfavorable currency translation.

The Company's gross profit was \$245.9 million, or 14.7% of net sales, for the nine months ended September 30, 2013, compared to \$242.6 million, or 18.3% of net sales, in 2012. Income from operations was \$101.8 million for the nine months ended September 30, 2013, compared to \$175.8 million in 2012. Net income was \$49.9 million for the nine months ended September 30, 2013, compared to net income of \$98.5 million in 2012. Basic income per share was \$0.96 for the nine months ended September 30, 2013, compared to \$2.35 in 2012. Increased SG&A expense from recently acquired entities contributed to a decline in income from operations. This increased SG&A expense as well as higher interest expense from additional debt contributed to a decline in net income. Net income and earnings per share for the nine months ended September 30, 2013 were positively affected by the gain on earthquake insurance recovery of \$22.5 million. Income from operations, net income and earnings per share for the nine months ended September 30, 2012 were positively affected by the supply agreement termination income of \$26.1 million.

CRITICAL ACCOUNTING ESTIMATES

Preparation of the financial statements and related disclosures in compliance with accounting principles generally accepted in the United States of America requires the application of appropriate technical accounting rules and guidance, as well as the use of estimates. The Company's application of these policies involves assumptions that require difficult subjective judgments regarding many factors, which, in and of themselves, could materially impact the financial statements and disclosures. A future change in the estimates, assumptions or judgments applied in determining the following matters, among others, could have a material impact on future financial statements and disclosures.

Asset and Business Acquisitions

The allocation of purchase price for asset and business acquisitions requires management estimates and judgment as to expectations for future cash flows of the acquired assets and business and the allocation of those cash flows to identifiable intangible assets in determining the estimated fair value for purchase price allocations. If the actual results differ from the estimates and judgments used in determining the purchase price allocations, impairment losses could occur. To aid in establishing the value of any intangible assets at the time of acquisition, the Company typically engages a professional appraisal firm.

Inventories

Inventories are valued at lower of cost or market. At September 30, 2013, approximately 12% of the Company's inventories were valued under the last-in, first-out (LIFO) method. The majority of steel material inventory and related work-in-process and finished goods are accounted for under the LIFO method. The remaining inventories were valued under the first-in, first-out (FIFO) method or average cost method. Market value is estimated based on current selling prices. Estimated provisions are established for slow-moving and obsolete inventory.

Income Taxes

Deferred income tax provisions are determined using the liability method whereby deferred tax assets and liabilities are recognized based upon temporary differences between the financial statement and income tax basis of assets and liabilities.

TITAN INTERNATIONAL, INC.
Management's Discussion and Analysis of
Financial Condition and Results of Operations

The Company assesses the realizability of its deferred tax asset positions and recognizes and measures uncertain tax positions in accordance with accounting standards for income taxes.

Retirement Benefit Obligations

Pension benefit obligations are based on various assumptions used by third-party actuaries in calculating these amounts. These assumptions include discount rates, expected return on plan assets, mortality rates and other factors. Revisions in assumptions and actual results that differ from the assumptions affect future expenses, cash funding requirements and obligations. The Company has three frozen defined benefit pension plans in the United States and pension plans in several foreign countries. During the first nine months of 2013, the Company contributed cash funds of \$3.8 million to its pension plans. Titan expects to contribute approximately \$1.7 million to these pension plans during the remainder of 2013. For more information concerning these costs and obligations, see the discussion of the "Pensions" and Note 25 to the Company's financial statements on Form 10-K for the fiscal year ended December 31, 2012.

Product Warranties

The Company provides limited warranties on workmanship on its products in all market segments. The majority of the Company's products have a limited warranty that ranges from zero to ten years, with certain products being prorated after the first year. The Company calculates a provision for warranty expense based on past warranty experience. Actual warranty expense may differ from historical experience. The Company's warranty accrual was \$34.6 million at September 30, 2013, and \$27.5 million at December 31, 2012. The Company's warranty accrual increased primarily as a result of increased provisions related to earthmoving tires.

SUBSEQUENT EVENTS

Voltyre-Prom Purchase

On October 4, 2013, Titan in partnership with One Equity Partners and the Russian Direct Investment Fund closed the acquisition of an 85% interest in Voltyre-Prom, a leading producer of agricultural and industrial tires in Volgograd, Russia, for approximately \$94.0 million. Titan will act as operating partner with responsibility for Voltyre-Prom's daily operations on behalf of the consortium of which Titan holds a 30% interest.

6.875% Senior Secured Notes due 2020

On October 7, 2013, the Company closed on an offering of \$400.0 million 6.875% senior secured notes due 2020. Titan used the net proceeds from the offering towards financing the repurchase of the Company's 7.875% senior secured notes due 2017 including tender and consent payments, accrued interest and expenses associated therewith.

7.875% Senior Secured Notes due 2017 Tender Offer Settlement

On October 7, 2013, the Company elected to exercise its early settlement election in connection with a tender offer to purchase all of its 7.875% senior secured notes due 2017, and purchased \$387.3 million, or approximately 73.8% of such notes. In connection with this transaction, Titan will record expenses of approximately \$18 million in the fourth quarter of 2013. These expenses relate primarily to a tender and consent premium of \$64.50 per \$1,000 principal amount of the notes and unamortized deferred financing fees offset by unamortized premium on the notes. The tender offer expired October 21, 2013, with no additional notes tendered.

7.875% Senior Secured Notes due 2017 Redemption Call

On October 7, 2013, the Company announced a call for redemption for all 7.875% senior secured notes due 2017 that were not validly tendered by the expiration of the tender offer on October 21, 2013. The remaining notes will be redeemed on November 6, 2013. In connection with this transaction, Titan will record expenses of approximately \$4 million in the fourth quarter of 2013. These expenses relate primarily to a redemption premium of \$59.06 per \$1,000 principal amount of the notes and unamortized deferred financing fees offset by unamortized premium on the notes.

Sales increased approximately 35% from the inclusion of recently acquired entities including \$128.9 million at Titan Europe. The increase in net sales was partially offset by a price/mix reduction which resulted largely from decreased raw material prices that were generally passed on to customers and decreased sales approximately 5%, weakened demand in the earthmoving/construction market which contributed to a 4% decrease in sales volume, and unfavorable currency translation which decreased sales by approximately 3%.

Year-to-date: Net sales for the nine months ended September 30, 2013, were \$1,669.2 million compared to \$1,327.0 million in 2012, an increase of 26%. Cost of Sales and Gross Profit

Quarter: Cost of sales was \$435.0 million for the quarter ended September 30, 2013, compared to \$337.6 million in 2012. Gross profit, as a percentage of net sales, decreased as a result of lower raw material costs that were passed on to customers before being fully realized by the Company. Increased warranty provisions relating to earthmoving tires also contributed to the decreased gross profit. Titan Europe provided gross profit of \$16.2 million, or 12.6% of net sales. Titan Europe margins were negatively affected by decreased earthmoving/construction demand.

Year-to-date: Cost of sales was \$1,423.3 million for the nine months ended September 30, 2013, compared to \$1,084.4 million in 2012. The higher cost of sales resulted primarily from the increase in sales levels. The cost of sales increased by approximately 31%, as compared to an approximate 26% increase in net sales.

Titan Europe's wheel manufacturing facility in Finale Emilia, Italy experienced damage from an earthquake in May of 2012 prior to Titan's acquisition of Titan Europe. The plant was closed for production during initial remedial work. This resulted in a limited transfer of production to other facilities within Titan Europe as well as sourcing product from facilities in the US owned by Titan and competitors. In the second quarter of 2013, Titan received a final insurance settlement payment of \$38.7 million, which offset the earthquake insurance receivable and resulted in a gain of \$22.5 million.

Income Taxes

	Three months ended September 30,		Nine months ended September 30,	
	2013	2012	2013	2012
Income tax expense	\$ 5,711	\$ 13,589	\$ 38,913	\$ 64,722

Quarter: The Company recorded income tax expense of \$5.7 million for the quarter ended September 30, 2013, as compared to \$13.6 million in 2012. The Company's effective income tax rate was 43% and 42% for the three months ended September 30, 2013 and 2012, respectively.

Year-to-date: Income tax expense for the nine months ended September 30, 2013 and 2012, was \$38.9 million and \$64.7 million, respectively. The Company's effective income tax rate was 44% and 40% for the nine months ended September 30, 2013 and 2012, respectively.

The Company's 2013 income tax expense and rate differs from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of a change in Italian law making the insurance proceeds from the earthquake non-taxable. In addition, as a result of the reassessment of the realizability of the deferred tax assets due to the Italian law change, a valuation allowance was established on the Italy net deferred tax assets. Other items contributing to the rate difference are state income tax expense, unrecognized tax benefits, foreign earnings, domestic production activities deduction, and tax deductible expenses related to the convertible bond repurchase.

The Company's 2012 income tax expense and rate differs from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of the supply agreement termination income and related income tax effects and the liability for unrecognized tax benefits recorded during the three months ended June 30, 2012.

MARKET RISK SENSITIVE INSTRUMENTS

The Company's risks related to foreign currencies, commodity prices and interest rates are consistent with those for 2012. For more information, see the "Market Risk Sensitive Instruments" discussion in the Company's Form 10-K for the fiscal year ended December 31, 2012.

PENSIONS

The Company has three frozen defined benefit pension plans covering certain employees or former employees of three U.S. subsidiaries. The Company also has pension plans covering certain employees of several foreign subsidiaries. These plans are described in Note 25 of the Company's Notes to Consolidated Financial Statements in the 2012 Annual Report on Form 10-K.

The Company's recorded liability for pensions is based on a number of assumptions, including discount rates, rates of return on investments, mortality rates and other factors. Certain of these assumptions are determined by the Company with the assistance of outside actuaries. Assumptions are based on past experience and anticipated future trends. These assumptions are reviewed on a regular basis and revised when appropriate. Revisions in assumptions and actual results that differ from the assumptions affect future expenses, cash funding requirements and the carrying value of the related obligations. Titan expects to contribute approximately \$1.7 million to these pension plans during the remainder of 2013.

Net income in the first nine months of 2013 was \$48.7 million lower than the net income in the first nine months of 2012. Partially contributing to this was increased depreciation and amortization of \$20.5 million and a convertible debt conversion charge of \$7.3 million. When comparing the first nine months of 2013 to the first nine months of 2012, cash flows from inventories and other current liabilities increased \$18.3 million and \$18.4 million, respectively, which was partially offset by decreased cash flows from other liabilities of \$9.0 million.

Summary of cash flows from financing activities:

(Amounts in thousands)

	Nine months ended September 30,		Change
	2013	2012	
Proceeds from borrowings	\$ 345,313	\$ —	\$ 345,313
Term loan borrowing	25,880	4,378	21,502

Dividends paid	(778)	(634)	(144)
Cash provided by (used for) financing activities	\$ 189,582	\$ (9,580)	\$ 199,162

In the first nine months of 2013, \$189.6 million of cash was provided by financing activities. This cash was primarily provided by proceeds from the issuance of \$345.3 million of additional 7.875% senior secured notes due 2017. This was partially offset by payment on debt of \$162.0 million, primarily at the Company's European facilities.

In the first nine months of 2012, \$9.6 million of cash was used for financing activities. This cash was primarily used for the payment on term loan borrowings of \$14.4 million that was originally borrowed to provide working capital for Titan's Latin American operations. This was partially offset by \$4.4 million of additional term loan borrowings for Titan's Latin American operations.

Financing cash flows increased by \$199.2 million when comparing the first nine months of 2013 to 2012. This increase was primarily the result of the additional issuance of 7.875% senior secured notes due 2017.

Other Issues

The Company's business is subject to seasonal variations in sales that affect inventory levels and accounts receivable balances. Historically, Titan tends to have higher production levels in the first and second quarters.

Debt Restrictions

The Company's revolving credit facility (credit facility) contains various restrictions, including:

- Limits on dividends and repurchases of the Company's stock.
- Restrictions on the ability of the Company to make additional borrowings, or to consolidate, merge or otherwise fundamentally change the ownership of the Company.
- Limitations on investments, dispositions of assets and guarantees of indebtedness.
- Other customary affirmative and negative covenants.

These restrictions could limit the Company's ability to respond to market conditions, to provide for unanticipated capital investments, to raise additional debt or equity capital, to pay dividends or to take advantage of business opportunities, including future acquisitions.

Liquidity Outlook

At September 30, 2013, the Company had \$447.5 million of cash and cash equivalents and no outstanding borrowings on the Company's \$150 million credit facility. The cash and cash equivalents balance of \$447.5 million includes \$96.7 million held in foreign countries. The Company's current plans do not demonstrate a need to repatriate the foreign amounts to fund U.S. operations, with the exception of intercompany loans to foreign subsidiaries totaling \$149.3 million at September 30, 2013. However, if foreign funds were needed for U.S. operations, the Company would be required to accrue and pay taxes to repatriate the funds.

TITAN INTERNATIONAL, INC.
Management's Discussion and Analysis of
Financial Condition and Results of Operations

In October 2013, Titan paid approximately \$19 million in connection with the tender offer for the Company's 7.875% senior secured notes due 2017. This amount represents payments for principal, tender and consent payments, and accrued interest which were not covered by the net proceeds of the offering of 6.875% senior secured notes due 2020. In November 2013, the Company expects to pay approximately \$147 million for the redemption of the remaining 7.875% senior secured notes due 2017. This amount represents principal, redemption premium and interest.

Capital expenditures for the remainder of 2013 are forecasted to be approximately \$15 million to \$20 million. Cash payments for interest are currently forecasted to be approximately \$23 million for the remainder of 2013 based on September 30, 2013 debt balances. The forecasted interest payments are comprised primarily of a semi-annual payment of \$20.7 million for the 7.875% senior secured notes paid on October 1.

In the future, Titan may seek to grow by making acquisitions which will depend on the ability to identify suitable acquisition candidates, to negotiate acceptable terms for their acquisition and to finance those acquisitions.

Subject to the terms of indebtedness, the Company may finance future acquisitions with cash on hand, cash from operations, additional indebtedness and/or by issuing additional equity securities.

Cash on hand, anticipated internal cash flows from operations and utilization of remaining available borrowings are expected to provide sufficient liquidity for working capital needs, capital expenditures and potential acquisitions.

MARKET CONDITIONS AND OUTLOOK

In the first nine months of 2013, Titan experienced higher sales when compared to the sales levels in the first nine months of 2012. The higher sales were primarily the result of increased demand in the Company's agricultural segment, as well as recent acquisitions including the August 2012 acquisition of the Planet Group of companies based in Perth, Australia, and the October 2012 acquisition of Titan Europe. For the remainder of 2013, the Company expects demand to remain weak in the earthmoving/construction market.

Energy, raw material and petroleum-based product costs have been volatile and may negatively impact the Company's margins. Many of Titan's overhead expenses are fixed; therefore, lower seasonal trends may cause negative fluctuations in quarterly profit margins and affect the financial condition of the Company.

AGRICULTURAL MARKET OUTLOOK

Agricultural market sales were higher in the first nine months of 2013 when compared to the first nine months of 2012. The Titan Europe acquisition and continued strong demand contributed to the higher sales levels. The increase in the global population may help grow future demand. The gradual increase in the use of biofuels may help sustain future production. Many variables, including weather, grain prices, export markets and future government policies and payments can greatly influence the overall health of the agricultural economy.

EARTHMOVING/CONSTRUCTION MARKET OUTLOOK

Earthmoving and mining sales were significantly higher in the first nine months of 2013 when compared to the first nine months of 2012. Recent acquisitions contributed to the higher sales levels. Although metals, oil and gas prices may fluctuate in the short-term, in the long-term, these prices are expected to remain at levels that are attractive for continued investment, which should help support future earthmoving and mining sales. The earthmoving/construction segment is affected by many variables, including commodity prices, road construction, infrastructure, government appropriations, housing starts and the on-going banking and credit issues. For the remainder of 2013, the Company expects earthmoving/construction market demand to remain weak.

CONSUMER MARKET OUTLOOK

Consumer market sales were slightly lower in the first nine months of 2013, when compared to the first nine months of 2012. The decrease in net sales was primarily the result of unfavorable currency translation on consumer product sales in Latin America, partially offset by the inclusion of recently acquired entities. Consumer market sales may fluctuate from period to period.
