

# Interim report and year-end report 2018

# Record earnings despite challenges

# Fourth quarter 2018

- Net sales for the fourth quarter of 2018 rose 8 percent to SEK 8,342 M (7,708).
- Organic sales increased 2 percent. Excluding project deliveries, the corresponding increase was 3 percent.
- EBIT, excluding items affecting comparability, rose 5 percent to SEK 997 M (928), which was equivalent to an EBIT margin of 11.7 percent (12.0). EBIT was the highest ever for the Group in a fourth quarter.
- Items affecting comparability for the quarter were a negative SEK 98 M (neg: 314) and pertain to restructuring costs. For 2017, the amount comprised a negative SEK 781 M in restructuring costs and SEK 467 M as an earnings effect from a receivable related to the divestment of Vibracoustic.
- Earnings per share for continuing operations excluding items affecting comparability totaled SEK 2.55 (2.31); for the Group in its entirety, earnings per share amounted to SEK 2.22 (1.01).
- Operating cash flow amounted to SEK 1,166 M (1,208). The cash conversion ratio for the most recent 12-month period declined to 74 percent (90), impacted primarily by a higher level of capital expenditure.

<sup>&</sup>lt;sup>1</sup> 12M 2017 includes restructuring costs of SEK-1 008 M, capital gain from the divestment of the compounding operation in Lesina, Czech Republic, with SEK 472 M, and adjustment of receivable related to Vibracoustic of SEK 467 M.

Published on February 13, 2019 1(28)

<sup>&</sup>lt;sup>2</sup> Earnings per share for the full year 2018 has been adjusted by SEK +0.57 (+0,22), which refers to items affecting comparability after tax, as well as costs attributable to the US Tax Reform.

## Full-year 2018

- Net sales for the full-year 2018 increased 8 percent to SEK 34,005 M (31,581).
- Organic sales rose 3 percent. Excluding project deliveries, the corresponding increase was 4 percent.
- EBIT, excluding items affecting comparability, rose 15 percent to SEK 4,694 M (4,091), corresponding to an EBIT margin of 13.8 percent (13.0). Both EBIT and the EBIT margin were the highest to date for the Group for a full year.
- Items affecting comparability were a negative net amount of SEK 176 M (neg: 69). For 2017, the amount included restructuring expenses in the negative amount of SEK 1,008 M, a positive SEK 467 M as an earnings effect from the receivable related to the divestment of Vibracoustic and the capital gain of SEK 472 M from the divestment of the compounding operation in Lesina in the Czech Republic.
- Earnings per share for continuing operations, excluding items affecting comparability, totaled SEK 12.34 (10.82). For the Group in its entirety, earnings per share amounted to SEK 11.77 (10.60).
- Net profit for the Group totaled SEK 3,190 M (2,874). The tax expense for 2018 was impacted by expenses of SEK 51 M related to the tax reform in the U.S.; the corresponding negative effect for 2017 was SEK 129 M. Refer to page 7.
- Operating cash flow for continuing operations amounted to SEK 3,488 M (3,688), down 5 percent. The cash conversion ratio for the most recent 12-month period declined to 74 percent (90), impacted primarily by a higher level of capital expenditure.

# Market outlook for the first quarter 2019

Demand is expected to be on a par with, or somewhat lower than, the fourth quarter of 2018, adjusted for seasonal variations.

Market outlook from the interim report published on October 30, 2018, relating to the fourth quarter of 2018 Demand is expected to be on a par with the third quarter of 2018, adjusted for seasonal variations.

### Dividend 2018

The Board of Directors proposes a cash dividend of SEK 4.75 per share (4.50).

# Record earnings despite challenges

"Trelleborg reported an operating profit that was its highest to date for a fourth quarter, despite challenges in some units.

Although areas of improvement remain, we can conclude that we had a decent end to a largely satisfactory year. For the full year we once again achieved a record result, although parts of our project business fought an uphill battle.

Full-year sales increased by 8 percent, with organic sales contributing 3 percent. EBIT, operating profit excluding items affecting comparability, increased 15 percent year-on-year. Both EBIT and the EBIT margin were the highest to date for the Group for a full year.

Quarterly sales increased by 8 percent, of which organic sales amounted to 2 percent, while structural growth contributed 2 percent. EBIT, excluding items affecting comparability rose by 5 percent compared with 2017.

During the quarter, we continued to grow in large parts of the world and it was essentially only in parts of Eastern Europe that our sales declined. This, in turn, is largely a consequence of bottlenecks in the Czech production units. The bottlenecks are due to difficulties in recruiting qualified operators as a result of the very low rate of unemployment in the country. The resulting situation is addressed through various measures, but during the quarter created significant inefficiency and affected both sales and earnings in parts of Trelleborg Industrial Solutions.

The quarter remained difficult for our project-related operations in Trelleborg Offshore & Construction. During the period, the operation was also charged with impairments related to certain project transactions. Improvement measures in the business area were implemented over the past 12 months and have created a more market-adapted and efficient operation. While there was certainly an upturn in the level of activity at the end of 2018, we expect that a distinct earnings improvement will only occur in the second half of 2019, when the higher activity level rolls over into increased sales.

Our largest business area, Trelleborg Sealing Solutions, performed well in all regions and its deliveries to both general industry and the aerospace industry were on the rise. However, sales to the automotive industry declined somewhat, which was attributable to the North American market.

There was a mixed trend in our tire business during the quarter. Sales of agricultural tires were slightly negative, but at the same time we noted that this was mainly attributable to the comparative period in 2017 being very strong as a result of new emission regulations that drove the new registration of tractors before year-end. Deliveries of material handling vehicles and construction machinery grew satisfactorily.

The Group's rate of investment remained high during the fourth quarter. We are investing in new sites and new technology, at the same time as we are increasing our capacity at several existing sites. The purpose is to always build a stronger Trelleborg with a long-term plan in focus, and it is part of the Group's strategy to strengthen its positions in attractive market segments.

Another example of this strategy is that we have formed a joint venture in India to promote our continued expansion in that part of the world. The company will manufacture tires for two-wheeled motor vehicles. After the close of the period, we finalized the acquisition of Sil-Pro, which expands our capacities within cleanroom manufacturing, primarily to healthcare & medical.

At the time of writing, the global economy is marked by great uncertainty, impacted by the Brexit negotiations and trade policy restrictions. As a global player in our industry, with manufacturing units located in nearly all parts of the world, Trelleborg stands well prepared to manage fluctuating market conditions. Our assessment is that demand in the first quarter of 2019 will be on a par with, or somewhat lower than, the fourth quarter of 2018."

Peter Nilsson, President and CEO

# Fourth quarter Net sales 2018

SEK M, growth	Q4 2018	Q4 2017	12M 2018	12M 2017
Net sales	8,342	7,708	34,005	31,581
Change total, %	8	4	8	16
Organic sales, %	2	7	3	4
Structural change, %	2	0	1	12
Currency effects, %	4	-3	4	0

Net sales for the fourth quarter of 2018 amounted to SEK 8,342 M (7,708). Organic sales increased 2 percent during the quarter. Structural changes contributed 2 percent. Exchange rate effects accounted for a positive 4-percent impact on sales compared with the year-earlier period.

Excluding project deliveries1:

The Group's organic sales increased 3 percent year on year. Organic sales in Western Europe rose 2 percent, while in the rest of Europe, organic sales declined 7 percent. In the North American market, organic sales rose 9 percent. Organic sales in South and Central America grew 11 percent, as in Asia and other markets, where the increase was 4 percent.

¹ Project deliveries refer to the whole of Trelleborg Offshore & Construction and minor parts of Trelleborg Industrial Solutions operations. Overall, project deliveries account for less than 10 percent of the Group's net sales.

No dilution effects arose

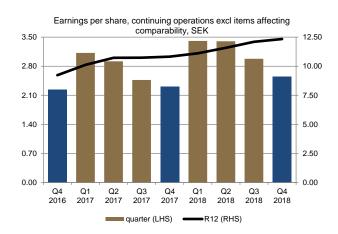

Earnings per share for continuing operations, excluding items affecting comparability, during the fourth quarter totaled SEK 2.55 (2.31).

For the Group in total, earnings per share amounted to SEK 2.22 (1.01).

Published on February 13, 2019 6(28)

<sup>&</sup>lt;sup>2</sup> Earnings per share for the full year 2018 has been adjusted by SEK +0.57 (+0,22), which refers to items affecting comparability after tax, as well as costs attributable to the US Tax Reform.

# Full-year 2018

Net sales totaled SEK 34,005 M (31,581), up 8 percent year on year. Organic sales increased 3 percent. Excluding project deliveries, the corresponding increase was 4 percent. Structural changes made a positive contribution of 1 percent. Exchange rate effects had a positive impact on sales of 4 percent compared with the year-earlier period.

EBIT excluding items affecting comparability was SEK 4,694 M (4,091). Items affecting comparability amounted to a net expense of SEK 176 M (expense: 69).

EBIT was SEK 4,518 M (4,022). The financial net expense was SEK 282 M (expense: 230). Net financial items in relation to net debt was 2.7 percent (2.1). Profit before tax totaled SEK 4,236 M (3,792).

The tax expense for the year was SEK 1,046 M (expense: 918). The tax rate for the Group amounted to 25 percent (24), impacted in both 2018 and 2017 by the tax reform passed in the U.S., see more below. Excluding these nonrecurring items and items affecting comparability, the underlying tax rate was 24 percent (24).

Net profit for the Group totaled SEK 3,190 M (2,874). Total earnings per share for the Group were SEK 11.77 (10.60).

# Significant events during the quarter

Offer to call options. Trelleborg's Group management, comprising nine individuals including the President and CEO, subscribed for a total of 150,000 call options in Trelleborg AB, following an offer from Trelleborg's principal owner, Henry Dunker Donation Fund & Foundations.

Trelleborg AB did not participate in the offer and will not be charged with any earnings effects related to the program.

The press release was published on November 19, 2018.

**Expansion in India.** Trelleborg Wheel Systems decided to invest in a production facility in India for the manufacture of tires for two-wheeled motor vehicles, thereby creating a platform for global growth and increased production capacity. The investment forms part of Trelleborg's strategy to strengthen its positions in attractive market segments. The investment takes the form of a joint venture whereby Trelleborg and Yogesh Agencies & Investments Private Limited, owned by the entrepreneur family Mahansaria, signed the agreement to form the joint venture. Trelleborg will own 24 percent of the joint venture.

The joint venture will establish a production site in Western India. Tire deliveries are expected to start at the end of 2020. The press release was published on December 5, 2018.

Tax reform in the U.S. As in the fourth quarter of 2017, the bill passed in December 2017 and the clarifications published by the U.S. authorities in 2018 had a negative impact on Trelleborg's tax expense. The negative effect during the quarter was approximately SEK 51 M. The expense is attributable to profits from foreign subsidiaries that are taxed in the U.S. without the possibility of deducting the tax already charged to the subsidiaries in their domiciles. The Trelleborg Group also anticipates a negative outcome in 2019, corresponding to the 2018 level. The expense for the fourth quarter of 2017 amounted to SEK 129 M and was attributable to nonrecurring taxation of accumulated profits in foreign subsidiaries.

# Significant events after the close of the period

Completed acquisition of silicone components and thermoplastic components manufacturer. Trelleborg Sealing Solutions finalized the acquisition of Sil-Pro, LLC, a U.S.-based privately owned contract manufacturer of high-tolerance silicone and thermoplastic components. The acquisition complements and broadens Trelleborg's current offering in the healthcare and medical industry.

The company has its head office and production facility in Delano, Minnesota, in the U.S. Total sales amounted to about SEK 350 M in 2017. This bolt-on acquisition is part of Trelleborg's strategy to strengthen its positions in attractive market segments.

The transaction will be consolidated as of January 2, 2019. Press releases were published on August 6, 2018 and January 3, 2019.

**Acquisition of regional tire distributor in Canada.** Trelleborg Wheel Systems signed an agreement and finalized the

acquisition of the Canadian based privately owned company Pneus ICM Inc. The company specializes in distribution and service of industrial tires to customers in eastern Canada. The acquisition strengthens and enlarges Trelleborg's industrial tire distribution network to a new important geographic market.

The company has its head office in Montreal, Canada. Total sales amounted to about SEK 23 M in 2018. This bolt-on acquisition is part of Trelleborg's strategy to strengthen its positions in attractive market segments.

The transaction was consolidated as of January 1, 2019.

Formation of a joint venture in Malaysia. Trelleborg Industrial Solutions signed an agreement with Wellcall Hose (M) SDN. BHD. to form a joint venture in Malaysia to manufacture and sell industrial hoses in composite materials. For Trelleborg, this venture is part of the Group's strategy to strengthen its positions in attractive market segments.

Published on February 13, 2019 7(28)

The joint venture will establish a production site in Malaysia. The first hose deliveries are scheduled to begin in 2020. Typical applications for hoses in composite materials include hoses for road and rail tanker trucks, hoses for aviation fuel and hoses for aggressive chemicals. Trelleborg currently manufactures composite hoses in Europe. Trelleborg will own 51 percent of the joint venture.

The press release was published on January 15, 2019.

Acquisition of outstanding shares in pipe seals company.

Trelleborg Industrial Solutions acquired the outstanding 49 percent of the shares in the North American group Max Seal.

Max Seal develops and manufactures polymer-based sealing systems for various types of pipes deployed in water and wastewater systems.

The operation was already fully consolidated. Press releases were published on February 25, 2014, and March 6, 2014.

## Other

Effects of Brexit and trade tariffs. All of the business areas have analyzed the effects of Brexit and other current trade barriers for customers and suppliers regarding the supply chain and tariff charges. The conclusion is that the Group overall is well prepared to manage various scenarios and any directly negative effects for the Group are expected to be limited. However, it is not possible to estimate indirect negative effects

of Brexit, and other current trade barriers, due to the amount of variables such an assessment would include.

# Risk management

Trelleborg serves a broad range of customers in a variety of market segments and niches. Sales are made to approximately 150 countries worldwide and the Group has manufacturing operations at over 100 production units in around 50 countries. Although the business is diversified, deploying several business models and operating a number of production units, and has an effective underlying spread of financial risks, a number of risks remain.

Trelleborg has identified eight major risks in five areas. These include risks that may result in damage or loss with substantial impact on the entire Group and therefore justify management of the risk exposure at Group level.

For information regarding the Group's risks, risk exposure and risk management, refer to the latest Trelleborg Annual Report, www.trelleborg.com and the information published in this interim report.

Published on February 13, 2019 8(28)

This report has been prepared in accordance with IAS 34 Interim Financial Reporting and the applicable rules of the Swedish Annual Accounts Act. Disclosures in accordance with IAS 34.16A appear in addition to the financial reports and their accompanying notes also in other parts of the interim report. The Parent Company applies recommendation RFR 2, Accounting for Legal Entities of the Swedish Financial Reporting Board and Chapter 9 of the Swedish Annual Accounts Act, Interim Report. The accounting policies applied by the Group and Parent Company correspond to the accounting policies applied in the preparation of the most recent annual report, with the exceptions presented below.

#### New and amended standards applied from January 1, 2018

IFRS 9 regulates classification, measurement and recognition of financial assets and liabilities. It replaces the sections of IAS 39 that regulate the classification and measurement of financial instruments as well as hedge accounting and provisions for credit losses. A project was conducted within Trelleborg on the basis of the following areas: classification, measurement and documentation of financial liabilities and assets, adjustment of documentation relating to hedge accounting to the new regulation and calculation of the effects of the transition to a new model for recognition of anticipated credit losses, known as the expected loss model. The conclusion is that the new standard will not have any material impact on the Trelleborg Group's reporting. Given the immaterial effects of the new standard, previous periods will not be restated. In 2018, the Group recognized a non-recurring item of SEK 7 M in equity on account of the modified calculation model for anticipated credit losses on accounts receivable and SEK 1 M for anticipated credit losses in cash and cash equivalents.

IFRS 15 introduces a new model for revenue recognition (five-step model) that is based on when control of a good or service is transferred to the customer. IFRS 15 replaces all previous standards, statements and interpretations relating to revenue recognition. Trelleborg has chosen to retroactively restate the 2017 fiscal year. During 2017, the Group completed its IFRS 15 project, which involved taking an inventory of customer contracts and assessing these in accordance with the five-step model. The review concluded that the transition to IFRS 15 will not have any material impact on the Group's financial statements.

#### New standards to be applied as of January 1, 2019

IFRS 16 "Leases" replaces IAS 17 "Leases" and will be applied as of January 1, 2019. The new standard entails that most leases will be recognized in the balance sheet, since the difference between operational leases and financial leases is being removed. According to the new standard, an asset pertaining to the right to use the leased asset and a financial liability pertaining to the obligation to pay the leases fees are recognized, with certain exceptions. The standard will impact the recognition of the Group's operational leases, particularly pertaining to buildings and premises. The Group has conducted a project that involved the review and classification of the Group's leases. For a further description of the project and the anticipated impact on the income statement and balance sheet, see also page 23.

This report has not been subject to a brief review by the company's auditor.

Trelleborg, February 13, 2019 Board of Directors of Trelleborg AB (publ)

Published on February 13, 2019 9(28)

Trelleborg Coated Systems is a leading global supplier of unique customer solutions for polymer-coated fabrics deployed in several industrial applications.

**Fourth quarter 2018.** Organic sales for the quarter increased 2 percent year on year. Organic sales for coated fabrics increased, mainly due to an upturn in North America, where deliveries to the aerospace industry and general industry, in particular, were healthy. Organic sales of printing blankets grew somewhat, mainly due to a positive sales trend in Europe.

EBIT and the EBIT margin increased year on year, primarily as a result of higher volumes, improved productivity and implemented acquisitions. Exchange rate effects from the translation of foreign subsidiaries had a positive impact on earnings of SEK 4 M compared with the year-earlier period.

**Full-year 2018.** Organic sales for the full year declined 2 percent compared with 2017. Sales of coated fabrics remained unchanged during the year. North America and Asia contributed a positive organic performance, although this could not fully offset the lower sales in Europe. Organic sales of printing blankets decreased during the year, with North America and Asia noting a stable trend while the performance in other regions was weaker.

EBIT and the EBIT margin increased year on year, due primarily to improved productivity. Exchange rate effects from the translation of foreign subsidiaries had a positive impact of SEK 12 M on EBIT compared with 2017.

**Fourth quarter 2018.** Organic sales for the quarter increased 7 percent year on year. The organic sales trend was positive and similar in most large geographic markets. Organic sales to general industry, the automotive industry and the oil and gas industry remained favorable. However, sales to construction-related segments were somewhat weaker compared with the year-earlier period.

EBIT and the EBIT margin were negatively affected by bottlenecks in the Czech production units. The bottlenecks are due to difficulties in recruiting qualified operators as a result of the very low rate of unemployment in the country. The resulting situation is addressed through various measures, but during the quarter created significant inefficiency and affected both sales and earnings in parts of the business area. Exchange rate effects from the translation of foreign subsidiaries had a positive effect of SEK 1 M on earnings compared with the year-earlier period.

**Full-year 2018.** Organic sales for the full year rose 8 percent compared with 2017. Most market segments, apart from the construction industry, reported positive organic sales.

EBIT increased compared with the preceding year, due primarily to higher volumes, previously implemented acquisitions and completed restructuring measures. The EBIT margin remained at the same level as a year earlier and was impacted by the shortage of qualified labor in the Czech Republic that was described earlier. Exchange rate effects from the translation of foreign subsidiaries had a positive impact of SEK 11 M on EBIT compared with 2017.

Additional key ratios on pages 18 - 19

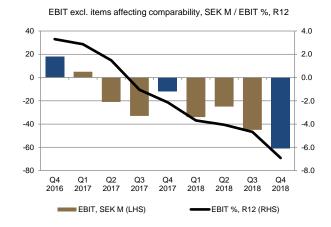

**Fourth quarter 2018.** Organic sales for the quarter declined 17 percent year on year. The decline was driven by fewer project transactions in the offshore oil & gas market segment and in the infrastructure construction segment.

EBIT and the EBIT margin declined year on year, due to fewer project deliveries, which resulted in under-absorption and a negative price mix. The order book at the end of the year indicated a limited improvement for the business area during the first half of the year. A positive result is expected for the second half of the current year. Exchange rate effects from the translation of foreign subsidiaries had a negative impact on EBIT of SEK 1 M compared with the year-earlier period.

**Full-year 2018.** Organic sales for the full year declined 18 percent compared with 2017, primarily impacted by the low level of market activity in parts of offshore oil & gas, but also by weaker deliveries in construction infrastructure. The order book for deliveries in 2019 improved during the year.

EBIT and the EBIT margin were lower compared with the preceding year, mainly as a result of lower project deliveries in offshore oil & gas but also due to lower sales in infrastructure construction. Activities to adapt the organization to the lower market activity continued in 2018, including a gradual closure of a facility in the U.S. Exchange rate effects from the translation of foreign subsidiaries had a negative impact of SEK 6 M on EBIT compared with 2017.

Fourth quarter 2018. Organic sales for the quarter increased 6 percent year on year. The organic sales trend was favorable in all geographic regions, and particularly positive in North America. Deliveries to general industry increased year on year in all regions. However, organic sales to the automotive industry were slightly negative during the quarter, with deliveries to Europe and Asia largely unchanged, while sales to North America declined. Organic sales to the aerospace industry were strong in all geographic regions during the quarter.

EBIT improved as a result of increased sales and implemented acquisitions. The EBIT margin increased somewhat year on year, primarily as a result of higher volumes and effective cost control. Exchange rate effects from the translation of foreign subsidiaries had a positive impact of SEK 23 M on earnings compared with the year-earlier period.

**Full-year 2018.** Organic sales for the full year rose 7 percent compared with 2017. All geographic regions demonstrated a positive organic trend, with sales increasing to general industry and the automotive and aerospace industries. The strongest organic sales growth was noted in Asia, but growth was also favorable in Europe and North America.

EBIT rose primarily as a result of higher volumes, acquisitions and effective cost control. The EBIT margin was maintained at a high level throughout the year, despite a certain impact from implemented acquisitions with lower margins. Exchange rate effects from the translation of foreign subsidiaries had a positive impact of SEK 72 M on EBIT compared with 2017.

Additional key ratios on pages 18 - 19

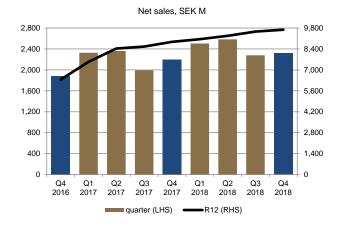

Fourth quarter 2018. Organic sales for the quarter declined 1 percent, compared with a strong year-earlier period, when growth was 17 percent. Organic sales of tires for agricultural machinery declined overall during the quarter; the trend in North was positive, while organic sales had a weaker performance in Asia and Europe. The weaker sales in Europe was mainly attributable to strong comparative figures. Organic sales of tires for material handling vehicles and construction vehicles rose year on year, with healthy deliveries in Europe. In general, capacity utilization is high within the business area, but capacity-raising investments will gradually lead to greater growth opportunities.

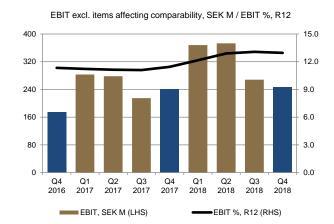

EBIT and the EBIT margin increased slightly as a result of acquisitions and synergy gains, although the margin was somewhat negatively affected by an imbalance between raw

materials and selling prices. Exchange rate effects from the translation of foreign subsidiaries had a positive impact of SEK 7 M on earnings compared with the year-earlier period.

**Full-year 2018.** Organic sales for the full year increased 2 percent compared with 2017. The organic sales trend for tires for agricultural machinery, material handling vehicles and construction machinery all developed well, with a somewhat weaker end to the year.

EBIT and the EBIT margin rose sharply, mainly due to synergies from acquisitions implemented earlier and higher volumes. Exchange rate effects from the translation of foreign subsidiaries had a positive impact of SEK 38 M on EBIT compared with 2017.

# Acquisitions

### Carrying amounts of identifiable acquired assets and assumed liabilities

#### 12M 2018

Trelleborg, through its Trelleborg Coated Systems business area, signed an agreement and finalized the acquisition of the U.S. based privately owned company Laminating Coating Technologies, Inc. (Lamcotec). Lamcotec develops and manufactures polyurethane-coated and laminated fabrics primarily used in the aerospace industry and in the healthcare & medical industry.

Trelleborg, through its Trelleborg Wheel Systems business area, signed an agreement and finalized the acquisition of the New Zealand company TRS Tyre & Wheel Ltd, owned by Bapcor Group. TRS is a distributor of tires for agricultural, material handling and construction vehicles in New Zealand. The company specializes in tires and complete wheels for tire and tractor dealers.

Trelleborg, through its Trelleborg Wheel Systems business area, signed an agreement and finalized the acquisition of a small regional tire distributor in the U.S., Industrial Tire Service Inc. The company specializes in solid industrial tires and material handling vehicles.

Trelleborg has, through its business area Trelleborg Coated Systems, signed an agreement and finalized the acquisition of the privately owned U.K. company Dartex Holdings Ltd. The company is specialized in the manufacture of coated fabrics primarily for the healthcare & medical industry and is a world leader in coated fabrics for pressure injury prevention.

In addition, certain adjustments were made to acquisition analyses relating to acquisitions made in 2017.

#### 12M 2017

Three acquisitions were finalized during the year:

- White Baumaschinenreifen GmbH
- Automated Dynamics
- · Carolina Seal Inc.

In addition, final settlement of earlier acquisitions took place and certain adjustments were also made to acquisition analyses attributable to acquisitions in 2016.

Acquisitions, SEK M	12M 2018 Acquired 2018 Adjustments to Acquisitions 2017	12M 2017 Acquired 2017 Adjustments to Acquisitions 2016

Impact shown in cash flow statement	440	226

<sup>&</sup>lt;sup>1</sup> Excess value of developed technology is amortized over 10 years.

The above goodwill for 2018 is attributable to acquired non-separable customer relationships and synergy effects expected after the acquisition. The fair value of acquired, identifiable, intangible assets is provisional pending final measurement of these assets.

The acquisitions made after the end of the period, see also page 7, are expected to have a marginal impact on the Group's key figures.

Published on February 13, 2019 21(28)

<sup>&</sup>lt;sup>2</sup> Trademarks have an indefinite useful life, no amortization takes place.

<sup>&</sup>lt;sup>3</sup> Excess value of customer relationships are amortized over 10-12 years.

## Financial assets and liabilities measured at fair value

A description of how fair value is calculated is provided under Accounting policies and in the below table.

At December 31, 2018, SEK M		Assets at fair value in profit and loss		Derivative for hedging		
	Assets measured at amortized cost	Carrying amount	Measurement level	Carrying amount	Measurement level	Total
Assets in the balance sheet						
Derivative instruments	-	33	2	78	2	111
Financial non-current assets	45	-		-		45
Accounts receivable	5,338	-		-		5,338
Interest-bearing receivable	6	-		-		6
Cash and cash equivalents	2,341	-		-		2,341
Total	7,730	33		78		7,841

		Liabilities at fair value in profit and loss		Derivative		
	Liabilities measured at amortized cost	Carrying amount	Measurement level	Carrying amount	Measurement level	Total
Liabilities in the balance sheet						
Derivative instruments	-	138	2	164	2	302
Interst-bearing non-current liabilities	9,307	-		-		9,307
Interst-bearing current liabilities	2,943	-		-		2,943
Accounts payable	3,399	-		-		3,399
Total	15,649	138		164		15,951

Financial assets and liabilities fair value at the balance sheet date are, essentially, based on observable data (level 2 in accordance with the fair-value hierarchy).

#### Valuation techniques used to derive Level 2 fair values

Level 2 derivatives comprise forward foreign contracts and interest rate swaps and are used mainly for hedging purposes but also for proprietary trading. These forward foreign exchange contracts have been fair valued using forward exchange rates that are quoted in an active market. Interest rate swaps are fair valued using forward interest rated extracted from observable yield curves.

#### Disclosure of fair value for debt and other financial instruments

Financial interest-bearing liabilities, with the exception of financial derivatives that adjust the loans, are recognized at amortized cost. Changes in interest rates and credit margins create differences between the fair value and amortized cost. A calculation at fair value would increase the Group's long-term loans by SEK 42 M. The Group's current loans were not remeasured because the carrying amount is considered to be a good estimation of the fair value due to their short maturity.

At December 31, 2017, SEK M		Assets at fair value in profit and loss				Derivative for hedging	
	Loan receivable and accounts receivable	Carrying amount	Measurement level	Carrying amount	Measurement level	Total	
Assets in the balance sheet							
Derivative instruments	<u>-</u>	46	2	168	2	214	
Financial non-current assets	3	-		-		3	
Accounts receivable	5,019	-		-		5,019	
Interest-bearing receivable 1	4	689	3	-		693	
Cash and cash equivalents	1,994	-		-		1,994	
Total	7 020	735		168		7 923	

		Liabilities at in profit ar		Derivatives used for hedging purposes		
	Other financial liabilities	Carrying amount	Measurement level	Carrying amount	Measurement level	Total
Liabilities in the balance sheet						
Derivative instruments	-	111	2	183	2	294
Interst-bearing non-current liabilities	8,051	-		=		8,051
Interst-bearing current liabilities	4,258	-		=		4,258
Accounts payable	3,176	-		-		3,176
Total	15,485	111		183		15,779

<sup>&</sup>lt;sup>1</sup> The receivable, totaling SEK 689 M, linked to Vibracoustic's realized sales development in 2017 was classified as Level 3 in the fair-value hierarchy due to the content of unobservable inputs, including the counterparty's credit risk.

Standards to be applied as of January 1, 2019, continued from page 9.

#### **IFRS 16 Leases**

A project has been conducted in the Group, in which a review has been conducted of all of the Group's leases.

The Group's lease portfolio mainly comprises operational leases for offices, production premises, warehouses, company cars, production and office equipment. The most material leases pertain to the rent of offices and production premises. For these leases, certain measurement policies were adopted, mainly regarding extension and termination options. For all other leases, the Group has assumed that no leases will be extended. A discount rate of interest has been established by country, using the base rate of interest including a margin. Depending on the length of the lease, four periods of time have been used for setting the rate of interest; 1–3 years, 3–5 years, 5-10 years and more than 10 years. Leases shorter than 12 months or which end within 12 months from the time of transition are classified as short-term contracts and are thus not included in the recognized assets or liabilities, except in the cases in which the company is reasonably certain of exercising an existing option to extend the contract. This opportunity exists only for offices and production premises. In the same manner, all contracts with a replacement value of less than

USD 5,000 and most contracts for personal computers, office furniture, printers and copiers are excluded.

Trelleborg has chosen to recognize the new standard according to the simplified approach. The exemption rule of not preparing a comparative year has been applied. The lease liability is measured at the present value of remaining lease payments using current discount rates and the asset is measured following a retroactive restatement from the start of the contract, but with a discount rate based on the discount rate at the time of transition. For existing financial leases formerly recognized according to IAS 17, closing balances for 2018 will be used as opening balances for 2019.

In the transition to IFRS 16, certain key figures such as total assets, capital employed and net indebtedness will be affected. Operating profit/loss will also be impacted when part of the lease expenses is classified as an interest expense. Trelleborg's initial estimate is that IFRS 16 will have an annual positive effect on operating profit of approximately SEK 50-70 M and a corresponding negative effect on financial income and expenses compared with 2018. The effect on profit after tax is expected to be marginal.

The estimated effects on the opening balances for 2019 are presented in the table below:

SEK M, estimated values	January 1, 2019
Impact on opening balance	
Lease assets	2,242
of which office and production facilities	2,049
Lease liabilities	2,411
Equity	-130
Deferred tax assets	39

## Financial definitions

Trelleborg uses the following alternative performance measures relating to its financial position, return on shareholders' equity and capital employed, net debt, debt/equity ratio and equity/assets ratio. The Group believes that these performance measures can be utilized by users of the financial statements as a supplement in assessing the possibility of dividends, making strategic investments and assessing the Group's ability to meet its financial commitments. Trelleborg also uses the cash flow metrics of operating cash flow and free cash flow to provide an indication of the funds generated by the operations in order to conduct strategic investments, carry out amortizations and generate a return for its shareholders. Trelleborg uses the performance metrics of EBITDA, EBITA and EBIT excluding items affecting comparability, which the Group considers to be relevant for investors seeking to understand its earnings generation before items affecting comparability. The Group defines its key figures as follows.

**Capital employed** Total assets less interest-bearing financial assets and non-interest-bearing operating liabilities (including pension liabilities) and excluding tax assets and tax liabilities.

**Cash conversion ratio** Operating cash flow as a percentage of EBIT.

Debt/equity ratio, % Net debt divided by total equity.

**Discontinuing operations** Profit from discontinuing operations is recognized net in the consolidated income statement under the item "Net profit in discontinuing operations".

**Earnings per share** Net profit for the period, attributable to shareholders of the Parent Company, divided by the average number of shares outstanding.

**EBIT** Operating profit including items affecting comparability.

**EBIT**, excluding items affecting comparability Operating profit excluding items affecting comparability.

**EBIT margin excluding items affecting comparability,** % EBIT excluding items affecting comparability as a percentage of net sales.

**EBITA** Operating profit excluding amortization and impairment of intangible assets and excluding items affecting comparability.

EBITA margin, % EBITA as a percentage of net sales.

**EBITDA** Operating profit excluding depreciation/amortization and impairment of PPE and intangible assets and excluding items affecting comparability.

Equity/assets ratio, % Total equity divided by total assets.

**Equity method** Associated companies and joint ventures in the Group are recognized in line with the equity method,

implying that the initial participation is changed to reflect the Group's share in the company's profit or loss and for any dividends.

**Free cash flow** Operating cash flow reduced by cash flow from financial items, taxes and the effect of restructuring measures on cash flow.

**Items affecting comparability** The total of the restructuring costs approved by the Board of Directors and major other non-recurring items.

**Net debt** Interest-bearing liabilities less interest-bearing assets and cash and cash equivalents.

Net debt/EBITDA Net debt divided by EBITDA.

**Operating cash flow** EBITDA excluding other non-cash items, capital expenditures, divested PPE and changes in working capital. The key figure excludes cash flow from items affecting comparability.

Organic growth The sales growth in comparable exchange rates that is generated by the Group itself on its own merits and in the existing structure. An acquisition is reported only as organic growth if it is included in an equal number of months in the current period and the corresponding period of the previous year. Otherwise, it is reported as structural growth.

**Return on capital employed,** % EBIT divided by the average capital employed calculated on 12 months revolving basis.

**Return on shareholders' equity,** % Profit for the period calculated on 12 months revolving basis, attributable to shareholders of the Parent Company divided by average equity, excluding non-controlling interests.

# Glossary

**OEM** (Original Equipment Manufacturer) A company that manufactures an end-product that can be sold on the open market. The product often consists of a combination of proprietarily manufactured and purchased components from suppliers that are assembled by the OEM company to make the final product.

Plastics can be divided into two main groups: Thermoplastics are non-cross-linked plastics that are solid at room temperature but become soft and moldable when heated, and Hard plastics are cross-linked plastics that disintegrate upon heating and do not regain their properties.

chains. Examples of polymers are plastics and rubber. Polymer technology The technology relating to

Polymer The word is derived from the Greek "poly," meaning

many small molecules - monomers - that are linked in long

"many" and "meros" meaning "parts." Polymers are made up of

manufacturing processes for polymers in combination with their unique properties.

## Seasonal effects

The various market segments are subject to seasonal effects. Demand for the Group is normally higher in the first six months of the year than in the last six months.

# **About Trelleborg**

Trelleborg is a world leader in engineered polymer solutions that seal, damp and protect critical applications in demanding environments. Our innovative solutions accelerate performance for customers in a sustainable way.

#### **Business concept**

Trelleborg's business concept is to seal, damp and protect in demanding industrial environments.

#### Strategy

Trelleborg's strategy is to secure leading positions in selected segments. This means that Trelleborg seeks segments, niches and product categories that – by virtue of the Group's market insights, core competencies and offering of advanced products and solutions – provide market leadership. In this manner, long-term shareholder value and added value are generated for customers. Trelleborg works with the strategy, both Groupwide and in the business areas, supported by four strategic cornerstones that – individually and in combination – underpin the strategy. The strategic cornerstones are: Geographic balance, Portfolio optimization, Structural improvements and Excellence.

#### Value drivers

**Polymer engineering.** Being the best at developing polymer based solutions that optimize and accelerate customers' applications and processes.

**Local presence, global reach.** Leveraging our global strength and capabilities, while acting as a local partner to our customers.

Application expertise. Being the best at understanding customers' applications and thereby adding the most value. Customer integration. Making it easy to do business with us and integrate in close partnerships with our customers. Business accelerator. Powered by our core capabilities our aim is always to improve, accelerate and grow our customers' businesses. Growing with our customers.

#### Trelleborg's market segments:

Business area/Segment distribution	General industry	Oil & gas	Transport equipment	Agriculture	Infrastructure construction	Aerospace	Capital intensive industry	Light Vehicles
Trelleborg Coated Systems	85%		1%			13%	14%	1%
Trelleborg Industrial Solutions	53%	3%	18%		13%		34%	13%
Trelleborg Offshore & Construction		41%			59%		100%	
Trelleborg Sealing Solutions	44%	2%	11%	4%		15%	32%	24%
Trelleborg Wheel Systems			42%	58%			100%	
Total	34%	4%	20%	18%	7%	6%	55%	11%

Net sales per market segment and business area based on annual accounts 2018. Historically, these percentages have not changed substantially between the quarters, the full year figures of 2018 will therefore give a good approximation.

# The Trelleborg Group's operations

#### **Continuing operations**

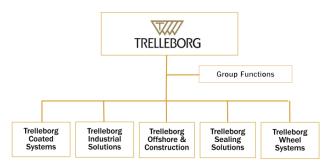

Refers to operations within Trelleborg's five business areas: Trelleborg Coated Systems, Trelleborg Industrial Solutions, Trelleborg Offshore & Construction, Trelleborg Sealing Solutions and Trelleborg Wheel Systems. In addition, it includes central staff functions.

#### **Discontinuing operations**

Refers generally to operations that have been discontinued or are in the process of being divested. The joint venture Vibracoustic's historical comparative figures are included here, for example.

#### Group in total

The above parts consolidated sum up to the Trelleborg Group in total.
