

APRIL 29, 2020

**SALES AT
MARCH 31, 2020**

In response to the health crisis, Michelin is taking action to protect its employees and support its host communities worldwide

SAFEGUARDING EMPLOYEES

Production shutdowns,
WFH solutions introduced

Necessary health precautions
deployed to support the
reopening of production lines

Production gradually being
restarted

SUPPORTING COMMUNITIES

Around 90k masks and other
PPE donated

Tires and assistance donated
free-of-charge for ambulances
and other vehicles needed for
the crisis

Masks (400k/week by mid-April)
and hand sanitizer being
produced in certain
Group plants

PRODUCING HEALTH- CARE PRODUCTS

12k polycarbonate face shields
being fast-track produced for
hospitals

Ventilator components and
reusable masks being 3D
printed

Positioning cushions being
produced to help patients breathe

Mask production lines built with
our Imeca subsidiary

Q1 2020: sales down 8.3% and measures taken to attenuate the business and financial impact of the emerging systemic crisis

- Global tire demand collapsed as lockdown policies gradually spread around the world and adversely impacted every business segment:
 - PC/LT: demand fell 15% after OEMs suspended production and consumers went into isolation
 - Truck: markets down 17% year on year
 - Specialties: certain mining markets and Replacement agricultural tires remained relatively resilient
- First-quarter sales down 8.3% year on year at current exchange rates, reflecting:
 - An 11.7% contraction in volumes, which accelerated in March (down 21%)
 - A 2% gain from the robust price-mix, led by the strength of the MICHELIN brand
 - A 1% net increase from changes in the scope of consolidation (first-time inclusion of Multistrada and Masternaut and deconsolidation of BookaTable)
- The Group has implemented measures to mitigate the financial impact of the impending deep recession:
 - Tracking supply and demand on a weekly basis to keep inventory under control
 - Reducing capital expenditure by €500 million
 - Reducing the proposed dividend by a total €330 million and suspending the share buyback program, except for the firm commitments outstanding for 2020
 - Reducing overhead costs
- Michelin's financial strength will enable it to deal with the uncertainty surrounding the crisis:
 - Stress tests, based on volumes declining by between 20% and 35% over the full year, have shown that the Group has sufficient cash and cash equivalents, without drawing down its back-up lines

Q1 2020: Steep drop in global tire demand in a time of systemic crisis

PC/LT: -15%

TRUCK: -17%

SPECIALTIES

Source: Michelin

* incl. Central America
for OE

As global tire demand plummeted, sales declined by 8.3% despite a robust price-mix effect

YoY change (in € millions and %)

* In particular the inclusion of Multistrada and Masternaut and the deconsolidation of BookaTable

Q1: the steep drop in global tire demand did not weaken the Group's pricing policies or enhancement of its product mix

YoY quarterly change 2019-2020 (in %)

Volumes

Price-mix

Currency effect

In every business segment, disciplined pricing policies and the upmarket shift in the mix attenuated the decline in volumes

(in € millions)		2020	2019	Change
  	SR1 sales	2,597	2,788	-7%
	SR2 sales	1,360	1,550	-12%
	SR3 sales	1,370	1,471	-7%

- SR1: market share gains in 18"+ and OE and firm RT prices helped to mitigate the steep plunge in tire demand and the unfavorable application of raw materials indexation clauses
- SR2: sharp drop in OE volumes since the beginning of the year and the impact of the health crisis on every business dragged sales sharply downwards despite a particularly robust price-mix effect
- SR3: despite a solid price-mix and resilience in certain segments (surface mining tires and RT agricultural tires), specialty tire sales were hard hit by the drop in the construction, OE agricultural and aircraft tire markets

Michelin is taking all the initiatives required to limit the impact of the crisis on SOI and FCF

An unprecedented crisis with a sudden, significant impact on SOI

- A collapse in volumes...

Stress test results assuming volumes down 20% and 35%* over the year

- With a significantly deeper fixed cost shortfall:
 - Higher volume drop-through

**The volume trends presented above may not in any way be construed as guidance or a market scenario for 2020. They are simply assumptions used to test the Group's financial resistance to a demand shock.*

Deployment of measures to cushion the impact on SOI and FCF

- Supply and demand tracked weekly to keep inventory under control
- Capital expenditure cut by around €500 million
- Proposed dividend reduced by €330 million
- Share buyback program suspended, except for the firm commitments outstanding for 2020
- Costs reduced, by:
 - Postponing unnecessary outlays
 - Freezing wage increases, except in regions where commitments have already been made
- Firm pricing strategy and moving the mix upmarket
- Raw materials impact expected to be positive

Michelin's robust financial position will enable it to withstand an unprecedented tire demand shock

Debt maturities at December 31, 2019 *(carrying amount, in € millions)*

- Stress tests have shown that the Group has sufficient cash and cash equivalents, without drawing down its confirmed back-up lines of credit (€1.5bn)
- The tested scenarios assume notably a decline in volumes ranging from 20% to 35% over the full year and reflect the measures now in place to conserve cash

Michelin entered 2020 with a solid financial structure, recognized by the rating agencies

- ➔ Long-term ratings as of Dec. 31, 2019

Short term	S&P Moody's Fitch	A-2 P-2 F-2
Long term	S&P Moody's Fitch	A- A3 A-
Outlook	S&P Moody's Fitch	Stable Stable Stable

Under its commercial paper program, the Group took advantage of its excellent credit ratings to issue since March 1st, 2020 a net €1 billion in commercial paper with an average maturity of 7.5 months.

Despite the resilience of freight demand in afflicted regions and the reopening of business in China, the situation remains too volatile to map out a market scenario
